

Seal, tag and tissue

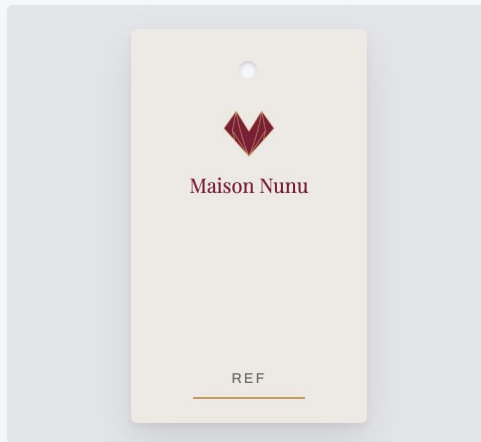

Shown actual size

Foil seal

40 mm circle, midnight with the heart mark in burgundy and gold foil. Closes tissue, closes a plain box, closes the bag. One sticker brands anything.

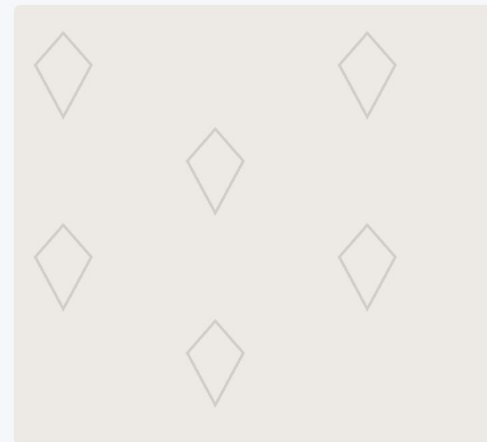

Minimum order near 100. The cheapest way to get foil onto a dark surface.

Hang tag

30 × 50 mm, beige, burgundy print. For raffia bags, hats and sunglasses, which do not fit a card or a box.

Ref written in by hand. Midnight cotton cord.

Tissue

17 gsm beige, the heart outline repeated at 55 mm pitch in a single tone barely darker than the ground.

Tier 3 only. Closed with the foil seal.

Phase 1 is this column alone. Blank midnight pouches, blank midnight boxes, blank beige cards, and the foil seal applied by hand. Total minimum order in the low hundreds rather than the thousands, and the unboxing photographs identically to the fully printed version. Move to printed pieces when the monthly sales figure justifies the cash, not before.
